

ANIMAL RESCUE FLIGHTS

www.animalrescueflights.org

Animal Rescue Flights (ARF) promotes, plans, and performs the process of moving animals from overcrowded shelters where they face certain death to other locations where qualified families are waiting to adopt them. We are looking for pilots, student pilots, and non-pilots who can contribute their time and skills and resources towards this effort. If you're going to fly, why not take along an animal in need with you? Why not make your trip tax-deductible?! All the details are online. Sign up today as an ARF volunteer! *Most ARF flights are tax-deductible!*
